Newsreels To Be Shown In State Public Schools

Monthly newsreels of current world events will be shown again this year in public junior and senior high schools of the state, under the sponsorship of the Travelers Insurance Companies. Travelers reports that after release through the school system, the films will be incorporated in a film library begun last year for organizational use.

Starting this month and continuing through the school year, also, more than 200 secondary schools will receive the News Magazine of the Screen.
